

Join Our Team as a **Industrial Electrician**

HUGO ELECTRICAL SERVICES | Niagara Falls, NY

WE DON'T JUST WIRE SYSTEMS—WE SAFEGUARD UPTIME AND ENGINEER RESILIENCE.

At HUGO Electrical, we know that technical systems are only as strong as the people behind them. We're looking for systems-savvy electricians who thrive in fast-paced environments and understands the cost of shortcuts—and the value of doing it right.

Our clients count on HUGO Electrical Services for reliable wiring, efficient power distribution, and balanced electrical systems that support long-term performance. If you're ready to use your electrical skills to help build systems that last, we want to hear from you.

We're looking for detail-driven electricians who care about quality, team cohesion, and getting the job done right—every time.

WHY YOU'LL WANT TO WORK HERE

Strategic, Hands-On Work

We're not your average job site. From solar systems wiring to thermographic inspections, your work matters to the operation.

Cross-Trade Collaboration

Work closely with engineers, and maintenance crews in a coordinated, respectful team environment.

Real Tools, Real Impact

From control panels to shutdowns, you'll see how your work keeps entire systems running efficiently.

Reputation for Quality

Our company is known for being the crew that fixes what others can't. That's something to be proud of.

THE ROLE

- Full-time role with available overtime and double-time.
- Install, wire, and troubleshoot electrical systems in industrial facilities
- Collaborate with mechanical and fabrication teams to ensure integrated, effective solutions

WHAT WE'RE LOOKING FOR

- Licensed journeyman or equivalent experience in industrial/commercial electrical systems
- Strong understanding of control systems, PLCs, and wiring diagrams
- Ability to maintain clear communication with the crew and management
- Commitment to safety and compliance
- Willingness to grow in both technical knowledge and hands-on skills

BONUS IF YOU HAVE:

- Experience in DC to AC Solar wiring, High Voltage
- Comfort working on challenging projects
- Interest in leadership or mentorship roles
